If approved, he and a few friends will perform a 1780 reenactment, and then camp at the Metropark for the weekend. This activity has been taking place for many years. They have not asked permission prior to this; however, they have been informed they need a permit. Kohli stated, this event has been going on for a long time and it is a wonderful thing. Lane requested Craine provide his email to the office and Beattie will send him the Special Use Application. Craine added that everyone is welcome to attend this event. Carpenter asked Craine to provide pictures of this event for our website, etc.

Gilbert requested permission to remove the dead tree near Old Austinburg Road and plant a new tree. He and his family would like to plant this tree to honor his brother that had passed away. Previously the family provided a shelter in this area to honor his father and believe the tree would be a nice addition. The expenses will be provided by the family, per Gilbert. Lane instructed Gilbert to provide his phone number/email and Bellas will contact him to review details.

Neary shared a conversation she had with the person that maintains the restrooms at the Lampson Staging Area. Neary shared several concerns and the misuse of the women's restroom. She suggested wastebaskets be added to the restrooms, locks, and fly strips. Lane thanked Neary for relaying this information to them and stated that the staff will work on these concerns.
